WC-IP Wireless Scroll Control

The WC-IP is a bespoke wireless scroll control developed specifically for prompting and has been optimised for on-screen talent operation of the script. Its compact design sits discreetly in the palm of the hand and has a forward/reverse joystick that intuitively scrolls the text. The WC-IP features three story navigation buttons and two programmable function buttons for enhanced operation where the talent needs more control options. All buttons are managed within WinPlus-IP and can be enabled/disabled/assigned when required.

Designed for use in busy studios, the WC-IP is quickly configured and paired with a base station (WB-IP) within WinPlus-IP. The long-life battery can be monitored in WinPlus-IP as well as via a discreet LED status display on the control itself and is recharged using a standard USB-C cable. Each WC-IP connects with a single WB-IP base station and will maintain connection over a distance of up to 100m/300ft, to ensure even the largest productions and the most mobile on-screen talent enjoy uninterrupted smooth scroll of the script at all times.

> ### Small
> Bespoke, ergonomic design enables discreet operation.

> ### Easy to operate
> Forward / Reverse joystick for intuitive scroll speed control.

> ### Long battery life
> Integrated rechargeable battery offers long run-time and simple USB-C charging.

> ### Simple setup
> Configuration, connection status review and battery management within WinPlus-IP.

> ### Large operating area
> Single receiver required (per controller) even for large studios.

Technical Specification

Scroll control	Single axis thumb actuated joystick (up/down) with centre bias.
Function buttons	Next Story Previous Story Top of script 2x programmable
Power	Integrated rechargeable battery with USB-C charging port
Size	120mm x 40mm x 20mm / 4.75 x 1.6 x 0.8"
Status display	Single LED indicator giving power, connection and battery status.
Wireless range	100m/300ft (line of sight)
Wireless frequency	2.4 to 2.4835 GHz

Product	Part Number
WC-IP Wireless Controller	A9009-0007
WB-IP Wireless Base Station	A9009-0008
WC-PKG Wireless Controller and Base Station Package	WC-PKG
