1. Introduction

1.1 About this release note

The release note accompanies the Autoscript Winplus-IP software package. This is a General Production release of Winplus-IP 1.12 and associated device firmware.

1.2 Audience

These release notes are intended for those managing the configuration of prompter product installations.

1.3 Product Firmware tested with this release

The following product firmware was used during testing with this release of software.

| Product No. | Product |
|---------------------|---|
| A9009-8003 | Winplus-IP application |
| A9009-9011-0001 | EVO-IP |
| A9009-9011-0003 | EVO-IPS |
| A9009-0001 | XBOX-IP |
| A9009-0002 | HC-IP Desk controller |
| A9009-0003 | FC-IP Foot controller |
| A9009-0006 and 0005 | WHC-IP Wireless hand controller and Base |
| A9009-0007 and 0008 | WC-IP and WB-IP - New Wireless hand controller and Base |

1.4 Compatibility

- Windows 7/8/10

1.5 Manufacturing Impact

| Action | Selection | Comments |
|--|------------------|-----------------|
| No Manufacturing impact | | |
| Next Batch | X | |
| Modify All Assembled Stock | | |
| Modify All Assembled and Unassembled Stock | | |

2. Release History

2.1 What's new in this release

This release introduces several new features:

- Dongle Licensing
- Local Prompters and NDI Prompters
- Prompt Messages
- Multiple improvements to Voice including adding various languages support.
- REST API
- USB Controllers (ShuttleXpress and Autocue USB Controllers).
- Printing/Preview improvements

| | Prompters and Controllers |
|------------------|--|
| Issue key | Summary |
| PROM-5538 | Block scalable prompt output setting (iPad) |
| PROM-5502 | Modify the handling of time in prompter firmware to allow for different time sources to be defined. |
| PROM-4744 | Ease scroll to a stop in Winplus-IP on a scroll demand timeout. |
| PROM-4742 | Enable rollback of scroll position when prompter devices are too far ahead and scrolling is stopped. |
| PROM-4741 | Ease scroll to a stop on prompter devices if scroll updates haven't been received |
| PROM-4739 | Allow the prompted script to stay visible for a while if Winplus-IP connection is lost |
| PROM-4679 | Modify the handling of time in prompter firmware to allow for different time sources to be defined. |
| PROM-4905 | HC-IP: Deliver new "low buffer" firmware to latest hardware revision |
| PROM-4702 | Clockplus-IP: Plumb in the configuration options and add GUI options to Winplus-IP |
| PROM-3873 | ClockPlus-IP: Support Countdown and count up functions |
| PROM-3876 | Subscribe an individual prompter device to an NTP time provider |
| PROM-1905 | Option to allow resume from pause with foot controller to always go forwards |
| PROM-5639 | Support firmware delivery for "revless" IP controller devices |

| | USB Controllers |
|------------------|---|
| Issue key | Summary |
| PROM-4520 | Shuttle Xpress USB discovery |
| PROM-4521 | Shuttle Xpress USB device removal |
| PROM-4522 | Shuttle Xpress device status |
| PROM-4523 | Shuttle Xpress support scrolling with jog-dial |
| PROM-4524 | Shuttle Xpress button actions |
| PROM-4525 | Shuttle Xpress First Configuration panel |
| PROM-4526 | Shuttle Xpress Enable/Disable from context menu |
| PROM-4527 | Shuttle Xpress button mapping configuration |
| PROM-4528 | Shuttle Xpress configuration: Speed Profile |
| PROM-4529 | Legacy Autocue Controllers USB discovery |
| PROM-4550 | Shuttle Xpress - Add support for import and export Devices |
| PROM-4560 | Multi Button Hand Controller - USB Discovery |
| PROM-4561 | Multi Button Hand Controller - USB Device Removal |
| PROM-4562 | Multi Button Hand Controller - Support Scrolling with Dial |
| PROM-4563 | Multi Button Hand Controller - Speed Profile |
| PROM-4565 | Multi Button Hand Controller - Device Configuration |
| PROM-4566 | Multi Button Hand Controller - Button Mapping Configuration |
| PROM-4567 | Multi Button Hand controller - Button actions |
| PROM-4569 | Foot Controller - USB Discovery |
| PROM-4570 | Foot Controller - USB Device Removal |
| PROM-4571 | Foot Controller - Support Scrolling Foot Pedal |
| PROM-4572 | Foot Controller - Speed Profile |
| PROM-4573 | Foot Controller - Device Configuration |
| PROM-4589 | USB Controllers - Add USB controller support for configurations |
| PROM-4608 | Allow multiple USB devices of the same type |
| PROM-5501 | Add Autocue USB device drivers to Winplus-IP installer |

| | NDI And Local Prompters |
|------------------|--|
| Issue key | Summary |
| PROM-4812 | NDI Prompter Device: Create NDI prompter |
| PROM-5169 | NDI Prompter Device: Update the NDI API to use An attribute set parameter |
| PROM-5189 | NDI / Local Prompter: Support Enable/Disable Prompting |
| PROM-5277 | Local Prompter / NDI: Add "preview mode" option |
| PROM-5280 | Local Prompter / NDI: Hide the "flip" option for now |
| PROM-52 | Local Prompter / NDI: Change licensing so user can only add 3 of either device (combined) |
| PROM-5168 | Local Prompter Device: Update the API to use the existing SetDisplaySettings API rather than using a separate path |
| PROM-5011 | Local Prompter Output: Inhibit use on same monitor as Winplus-IPs main window |
| PROM-4784 | Local Prompter Output Flip Option |

| | |
|-----------|--|
| PROM-4584 | Ability to manually add a Local Prompter |
| PROM-4588 | Prompt window takes part in configurations and import export |
| PROM-4587 | Ability to configure Prompt Window |

| Logging and Debugging | |
|------------------------------|--|
| Issue key | Summary |
| PROM-4471 | Log file contents on settings imports/changes |
| PROM-5404 | Log the Machine ID when generated & parts that make up the machine ID. |
| PROM-5481 | We should log in the heartbeat the Winplus Process CPU usage |

| Text Editor | |
|--------------------|---|
| Issue key | Summary |
| PROM-5130 | Add an unsaved indicator to dirty run orders in the run order list |
| PROM-4507 | Show custom colours shown on toolbar |
| PROM-4398 | Text Colour picker should be a button |
| PROM-2458 | Need to be able to insert a story/story block without selecting a story first |
| PROM-4111 | Toggle Bookmark using ALT+M rather than unrelated key stroke combination |

| Newsroom Integration | |
|-----------------------------|--|
| Issue key | Summary |
| PROM-5462 | Optionally enable the use of story headers from a roCreate to prevent roReqs |
| PROM-5314 | Cloak stories without an assigned presenter |
| PROM-5222 | iNews: improved handling of ind. stories that fail to load from run order |

| Prompt Messages | |
|------------------------|---|
| Issue key | Summary |
| PROM-5127 | Prompt Messages should be shared over redundancy |
| PROM-5080 | Include Prompt Messages in Settings Import/Export |
| PROM-4782 | Prompt message configuration |
| PROM-3728 | Edit prompt messages on screen |

| REST API | |
|------------------|--|
| Issue key | Summary |
| PROM-5283 | REST API: Command for blank screen |
| PROM-4952 | Move prompter (next, previous story top of run order) via REST API |
| PROM-5576 | REST API: Add remaining Director functions |
| PROM-5710 | REST API: Get Configuration Snapshot endpoint |

| Run Order and Printing | |
|-------------------------------|--|
| Issue key | Summary |
| PROM-724 | Added 'Notes' column |
| PROM-4510 | Rundown Project File |
| PROM-4393 | Create Print Preview main window menu option |

| | |
|-----------|---|
| PROM-4596 | select multiple files from the open dialog & load these with a single action. |
| PROM-4599 | Add story selection to Print Preview and use as the standard print option |

2.2 System requirements

This release requires the following system requirements:

- Windows 7/8/10
- OpenGL 2.1 or greater compatible video card

2.3 Components included in this release

| Software | Version |
|------------------------|----------------|
| | |
| Application | |
| Winplus-IP | 1.12.2.102 |
| | |
| Device Firmware | |
| HC-IP | 1.3.2.606 |
| FC-IP | 1.3.2.606 |
| WHC-IP | 1.3.2.606 |
| WB-IP/WC-IP | 1.3.2.606 |
| XBOX-IP (EVO/XBOX) | 1.8.5.353 |

2.4 Issues resolved in this release

The CR Number in the first column of the table below is the permanent reference number allocated to the issue.

| | Voice |
|------------------|---|
| Issue key | Summary |
| PROM-5508 | Voice Presenter: Active scroller can flip on and off rapidly when stopped |
| PROM-5439 | Autoscroll past SOT scrolls too far when you have short story text lines between two SOTs |
| PROM-5400 | Voice Director - Force Uppercase is not working |
| PROM-5387 | Voice Director: Commands execute with a significant delay after open mic chatter |
| PROM-5352 | Jump to Subject scrolls to the next subject when the offset is set to 2 lines |
| PROM-5218 | Jump to subjects allows empty entries (trailing ;) |
| PROM-5094 | Voice Director fails to start after I changed the English commands to Arabic |
| PROM-5026 | VP settings dialog displays a message of unsaved changes even though no changes were made |
| PROM-4995 | There is no option to Load the Advanced Voice Parameters from a file |
| PROM-4994 | The default VoiceParameters Language should be something else other than "defaults" |
| PROM-4992 | The Advanced Voice Parameters settings are not saved as part for Export Settings |
| PROM-5603 | Autoscript Voice: Stealth mode is enabled unexpectedly |

| | Prompters and Controllers |
|------------------|--|
| Issue key | Summary |
| PROM-5766 | Prompter devices on old firmware go "Busy" when a runorder is loaded |
| PROM-5784 | Local prompt engine stops receiving commands (e.g. story updates). |
| PROM-5718 | Old firmware Xbox and EVO devices cannot connect to Winplus-IP V1.12 |
| PROM-5435 | Autoscript Legacy controllers' connection/behaviour is not reliable in v1.12 |
| PROM-5563 | Add/Merge devices from configuration isn't configuring the devices |
| PROM-5562 | Wireless controller not keeping imported configuration settings |
| PROM-5542 | iEVO V1.4.0.50 connection goes "busy" when you configure the device with Winplus-IP V1.12 |
| PROM-5520 | iEVO Not displaying time zone correctly after restart of iEVO app |
| PROM-5483 | EVO-IP/Xbox firmware does not shut down cleanly |
| PROM-5475 | EVO-IP stays busy (blue) after shutting down the primary and taking control on the Standby WP-IP |
| PROM-3801 | Prompters become incorrectly positioned when scrolling backwards into a previous run order |
| PROM-5160 | When adding a new HC-IP to Winplus-IP it needs to be disabled and re-enabled before it can be used |
| PROM-5429 | Unable to update the HC-IP firmware on a controller with the new chip |
| PROM-5425 | Cue timer occasionally appears in the wrong colour on the Clock Module |

| | |
|-----------|--|
| PROM-5424 | Unable to update the EVO firmware |
| PROM-5647 | Loading a legacy device can crash Winplus-IP |
| PROM-5654 | Add/Merge Devices in Configuration doesn't work for Local and NDI Prompters |
| PROM-5655 | Reverse direction button action fights demand |
| PROM-4501 | Device ownership shows as blue (busy) but shows me as the owner. |
| PROM-5588 | Warning triangle on the WB-IP configuration dialog although it has the latest firmware |
| PROM-5581 | Add/Merge Devices in Configuration can duplicate IP controllers |
| PROM-5582 | Scroll Smoothness issues on iPad Pro |

| | Prompt Messages |
|------------------|---|
| Issue key | Summary |
| PROM-5141 | Arabic Prompt messages are duplicated when sent to the prompt output/preview |
| PROM-5082 | Prompt Messages failed to appear on the Prompt Preview after deleting some NDI Prompter devices |
| PROM-5081 | Prompt Messages don't appear on the Virtual Prompter |
| PROM-5079 | Long Arabic Prompt messages can scroll in the wrong direction on the prompt preview and output |
| PROM-5078 | When Winplus-IP starts Prompt messages from the previous session gets displayed on the prompt output |
| PROM-4958 | It's not possible to display a long message using Prompt Messages |
| PROM-4957 | When typing Arabic messages in Prompt Messages the text is left aligned which makes the auto-complete confusing |
| PROM-5416 | The Prompt Messages font should be set to a default font in the settings dialog |

| | GUI and Usability |
|------------------|---|
| Issue key | Summary |
| PROM-5839 | Extreme memory usage on startup when using Legacy controllers |
| PROM-5578 | The shortcut keys list is duplicated |
| PROM-5488 | Cannot use all alt+ctrl+number keys. |
| PROM-4445 | Winplus-IP crashed out when I was loading (edit and prompt) a second run order |
| PROM-5337 | GUI not responding after repeatedly printing a run order (1 hour long) |
| PROM-5126 | Maximising or "restoring" the Winplus-IP window causes a noticeable black flicker of the virtual prompter |
| PROM-5123 | Prompt Preview doesn't recover from crashes |
| PROM-5107 | Winplus-IP froze, MOS and controllers continued working |
| PROM-4583 | Inserting a presenter right at the end of a document can cause an exception |
| PROM-5414 | Reset on the Cue Marker settings doesn't reset the colour on the settings page |
| PROM-5138 | Uncoverable Crash in IpPrompterDeviceSummary |
| PROM-5108 | Only 3 out of 11 devices are added when loading a configuration |
| PROM-5076 | To Drag and drop a group you need to do 2 steps - Expand it first then drag and drop it |

| | |
|-----------|---|
| PROM-5075 | If you drag and drop a group of run orders to the bottom of the list, you get a series of questions to confirm the deletions of each run order in the group |
| PROM-5067 | Drag/drop of groups of run orders doesn't work |
| PROM-5066 | Sorting the list of run orders using drag and drop asks if you want to add the run order to group |
| PROM-5065 | Deleting a run order from a group should remove all runorders from the list |
| PROM-5064 | Remove from Group is greyed out when I select a run order belonging to a group |
| PROM-5063 | Unknown error dialog after merging docx, awp and txt file and hitting Save. |
| PROM-4903 | Add a menu separator to window's Settings->Toolbar menu to separate the prompt preview options from the rest |
| PROM-4871 | Autosave of run orders doesn't work for multiple newly created run orders |
| PROM-4762 | Autosave of run orders doesn't work for newly created run orders |
| PROM-5531 | Save warning when no changes have been made since last save |
| PROM-4881 | Licence type obscured by prompter image |
| PROM-4858 | LOCK in Export Settings should come with a warning |

| | Printing |
|------------------|--|
| Issue key | Summary |
| PROM-4874 | The "Select Stories" value in "Print Editing Run Order" doesn't persist when clicking Apply. |
| PROM-5509 | Print preview is using an Italic font |
| PROM-5340 | The print dialog takes a long time to appear when changing a setting on the Print Editing Run order dialog and clicking Print while the preview is being updated |
| PROM-5335 | Print Editing Story List options (e.g., date and time) are only accessible from the Print Editing Run Order menu |
| PROM-4548 | Print status message will not close after cancel |

| | Logging and Debugging |
|------------------|--|
| Issue key | Summary |
| PROM-4357 | Live story logging fails when prompting and editing different run orders |
| PROM-5232 | The logs show many "unknown localized message" errors |
| PROM-5751 | Logging of pressed scroller button is not correct |

| | Text Editor |
|------------------|---|
| Issue key | Summary |
| PROM-5649 | Text editor hang (GUI not responding GetFont) |
| PROM-5837 | Typed large font size could break WinPlus-IP |
| PROM-4993 | Hindi line wrap issue |
| PROM-5043 | German diacritics get shifted on the prompt output although they appear fine in the editor |
| PROM-4869 | RTF export fails to keep the formatting for Instructions, SOT and breaks |
| PROM-4868 | The "after story" value in "Insert Story" should be populated with the story number above the first selected story. |

Public Release Notes

| | |
|-----------|--|
| PROM-4855 | Selecting text with a trailing space requires you to press some buttons twice to toggle the action (Bold, Italic, underline). |
| PROM-4758 | Story has the wrong alignment in an exported docx file |
| PROM-4672 | Shift+F3 to toggle text case fails if the text includes some RTL characters |
| PROM-5087 | WP-IP lock with smiley character |
| PROM-5149 | Line wrap issue |
| PROM-5484 | Text wrapping incorrectly on output |
| PROM-5482 | Text wrapping issue. |
| PROM-5402 | Blue Bracket doesn't stay at the top when Follow Prompter is turned on |
| PROM-5373 | The wrong font and size are used for the story text when a slugline is inserted |
| PROM-5353 | Pasting a multiline SOT Macro text will only mark the last line as SOT |
| PROM-5325 | Cloaking some text isn't cloaking the correct lines |
| PROM-5220 | Some editor actions don't mark the run order as dirty |
| PROM-5181 | When a story number is pasted into text editor it gets auto numbered |
| PROM-5180 | The insertion point jumps in the story editor when typing a story number |
| PROM-5171 | Typing into the text editor when it's empty causes the slugline to be split |
| PROM-5148 | Docx importer uses wrong colours for text when checking closeness to b&w |
| PROM-5131 | Using Alt-N or Alt-P to move to bookmarks moves you to the wrong line |
| PROM-5128 | Creating a bookmark on a line causes the highlight to be on the wrong line compared to bookmark text |
| PROM-5109 | Follow Prompter - cue marker position is causing customer confusion |
| PROM-4655 | Creation of Slugline does not take into account characters before creation point. |
| PROM-5405 | Paged Scrolling doesn't work |
| PROM-5344 | The Caret following Cue Marker functionality should turn off if not scrolling |
| PROM-5343 | Editing an ID of a Bookmark should mark the run order as Dirty and asks the user to save the file if WP-IP is closed without saving first. |
| PROM-4873 | Bookmarks and Snapshots are always sorted by position regardless of the state of "Sort by Position" |
| PROM-4686 | After slugline creation moves the editor down |
| PROM-5653 | Bookmarks are left in the wrong position when typing into a large story |
| PROM-5648 | Text editor isn't updating prompter when typing into huge story with bookmarks |
| PROM-5587 | Correct the behaviour of Alt+P/Alt+N or change the Shortcut key description |
| PROM-5640 | Text editor selection colours should not be tied to Windows colours |
| PROM-3907 | Text typed in appears in lowercase even if the presenter has "Force Uppercase" in Presenter Settings |
| PROM-4660 | Apply Presenter doesn't change the font name and size for awp files but it does for newsroom run orders. |
| PROM-5672 | DOCX import omits text with hyperlinks |
| PROM-5657 | Delete and Backspace performing the same function in Arabic text |
| PROM-5759 | First Slugline style lost after selecting all text (via Ctrl+A) & typing in the editor |
| PROM-5755 | Slugline style is copied to the story text if you press Enter and type quickly at the end of slugline |
| PROM-5750 | Specific formatting at the end of document causes an exception in text editor |
| PROM-5749 | Deleting a slugline for a story that has a bookmark can cause a text editor error |
| PROM-5748 | Prompting can be stopped completely by additional spaces in a rundown file |

| | |
|-----------|--|
| PROM-5738 | High speed typing via automation can break the Text Editor |
| PROM-5695 | It's no longer possible to create sluglines from within the text editor using [] |
| PROM-4646 | The first slugline appears white on black if I press Ctrl+A and start typing |

| Newsroom Integration | |
|-----------------------------|--|
| Issue key | Summary |
| PROM-5485 | Editing a MOS server will cause it to be disconnected |
| PROM-5161 | Clicking on Add Newsroom displays and empty dialog box |
| PROM-5110 | Investigate issue with iNews connections when running near rxnet limit |
| PROM-5046 | Font size incorrect in MOS configuration window |

| USB Controllers | |
|------------------------|---|
| Issue Type | Summary |
| PROM-5437 | Autocue USB MB controller appears disconnected in WP-IP after restart |
| PROM-5070 | Devices Discovery dialog doesn't show ShuttleXpress until WP-IP is restarted |
| PROM-5434 | Autocue USB MB - Prev and Next Marker both jump to the next story |
| PROM-4712 | Naming consistency (USB controllers) |
| PROM-4711 | Add Discovered Device dialog shows duplicate controllers when both the Foot controller and the Multibutton controllers are plugged in |
| PROM-4999 | Log Spam when the Autocue USB controller is disconnected from the PC |

| Prompt Output | |
|----------------------|---|
| Issue key | Summary |
| PROM-5163 | EVO scrolling is not as smooth as it should be. |
| PROM-5162 | EVO-IP: Firmware crash adding device to V1.11 Winplus-IP |
| PROM-4446 | Prompter preferences: Hide Sluglines should not hide Breaks |

| Export/import | |
|----------------------|---|
| Issue key | Summary |
| PROM-5430 | Export/Import Settings doesn't keep enabled/disabled status for ShuttleXpress |
| PROM-4866 | Importing the "Saved Run Order" setting can fail to load saved run orders |
| PROM-4863 | Colour Closeness output discrepancies between preview & the real export |
| PROM-4861 | Increased speed of Preview in Export Run Order |
| PROM-4860 | Slugline Underline in Export Docx file doesn't work |
| PROM-4757 | Exporting run order as a docx file replaces the loaded one with the docx file |
| PROM-5719 | Importing a AWP file should always override source to manual |
| PROM-5688 | Export lock can be disabled by importing settings and restarting Winplus-IP |

| Redundancy | |
|-------------------|--|
| Issue key | Summary |
| PROM-5460 | Redundancy - The Standby WinPlus-IP does not always follow the Prompter when the Follow Prompter is set on the Primary |

| | |
|-----------|---|
| PROM-5472 | Failed to manually pair two instances of WP-IP after having previously paired them automatically |
| PROM-5474 | HC-IP controls the Standby WP-IP after shutting down the primary WP-IP even though it's still in Standby mode |
| PROM-5389 | Redundancy: Scroll position does not sync to peer... again |
| PROM-5516 | Autoscript: Using TAKE CONTROL in redundancy can disable prompting |
| PROM-5346 | Redundancy: Syslink state machine appears to get stuck |
| PROM-5339 | Redundancy: Take Control action takes too long |
| PROM-5331 | Redundancy: Active conflict result can be wrong |
| PROM-5085 | Redundancy: Standby no longer scrolls with primary |
| PROM-5084 | It is not always possible to unpair the primary WP-IP from redundancy |

| Stability of Winplus-IP and devices | |
|--|--|
| Issue key | Summary |
| PROM-5427 | Winplus-IP crashed after trying to print a one hour run order for a second time |
| PROM-5417 | Winplus-IP gets stuck on the splash screen |
| PROM-5408 | Unhandled exception after clicking on Reset To Defaults in Configuration if an NDI device is present |
| PROM-5407 | "App terminating because of unhandled exception" error message when trying to take control of a peer in Redundancy |
| PROM-5147 | Unrecoverable Crash when updating device summaries |
| PROM-5415 | Winplus-IP can believe it has control of a prompter when it does not |
| PROM-5326 | Licence can disappear |
| PROM-5324 | The text will stay displayed on the prompter for 15 seconds after closing Winplus-IP |
| PROM-5607 | Mitigate primary prompt engine loss so position can be recovered |
| PROM-5726 | Application freeze - Text Editor issue |
| PROM-5693 | Fatal ~Unhandled Exception, character issue possible cause |

| Run-orders | |
|-------------------|---|
| Issue key | Summary |
| PROM-5152 | The order of run orders gets changed when dragging and dropping a group of run orders |
| PROM-5586 | Save As XML should replace the currently loaded file |
| PROM-5585 | Save As XML doesn't work |

| Clock Module and Timers | |
|--------------------------------|---|
| Issue key | Summary |
| PROM-4069 | Timer cannot select standard colour red |
| PROM-5334 | Clock Module showing local PC time even though USE HOST Time Zone is disabled (using NY Time Zone) |
| PROM-5333 | The time will be displayed on the clock module even though Clock Module Displays Time is turned off |

3. Installation of this release

3.1 To Access WinPlus-IP Software

Go to the following webpage to download the demo WinPlus-IP software:

www.autoscript.tv/support/software-download

You will be required to complete the registration page.

Where applicable Purchase a WinPlus-IP (WP-IP)/WinPlus-IP newsroom (WP-IPN) licence from Videndum Production Solutions and supply an email address to receive a copy of your delivery note

You will receive an email from Videndum Production Solutions Sales Support with a delivery note including your serial id number

3.2 To Install WinPlus-IP

Note: If you already have an older version of WinPlus-IP installed, you do not need to uninstall it first. However, if you have a Beta version (0.0.0.x), you will need to uninstall it first using Programs and Features in the Windows Control Panel.

Note: Images below are as a guide only and the actual installed version number may be different.

Run WinPlus-IP.exe

Click I agree to the license terms and conditions and then install

If you are asked if you want to allow WinPlus-IP to make changes to your computer, click Yes

Public Release Notes

The setup wizard will then continue. Click Next

Click I accept the license terms and conditions and click Next

You will then be asked for a location for the destination folder. Enter a new address by clicking Change or click Next for the default location

Public Release Notes

You will be given another opportunity to change the folder, install the application or cancel

Click Finish to complete the installation

If successful, the following window will be displayed
